"While we have a handful of production parts for EPIC-X and will deliver them before NAB as promised, we are now looking at how to make more EPIC-Ms available to EPIC-X customers because there will be a delay in EPIC-X production due to the "Japan-effect".

we still feel that we can deliver all EPIC-X orders by summer's end (End of September) but it will be "back-end" weighted. April and May will be "light".

- Finner Knows Best 2011 NAB Map [finnerknowsbest.com](http://finnerknowsbest.com)

With thanks to Dan Dumouchel

Featured Sponsor of the FKB NAB Map

Welcome to NAB 2011! This should be one Epic show! So first off: head over to the Red Booth (SL6320). Now, while you're waiting in line, take a moment to look over the FinnerKnowsBest.com reduser survival guide for the rest of NAB.

Color coded most important.

**Red** = South Hall and Central H

**Dark Red** = Not a whole lot Red related but we recomend walking around the perimeter of all the halls. Who knows what you might see.

The Red booth is going to be awesome, but you're going to want to check out stuff like the new Epic accessories at the Element Technica Booth (C12626), the presentations at Vitec (C6929), the Post Pit Live Red Centre Podcasts... and much, much more! This is NAB after all!

So what about those poor saps who can't come to NAB? Well, we will be tweeting from the show floor. Follow Colin to find out just how much you'll be missing! [twitter.com/colin\\_sheldon](http://twitter.com/colin_sheldon)

NAB is one massive place, so if you find something for Red/Epic/Scarlet that you think we should review, send the info to: [info@finnerknowsbest.com](mailto:info@finnerknowsbest.com)

Don't forget to watch our Red related gear reviews @ FinnerKnowsBest.com
