<http://www.newsshooter.com/2014/03/27/edelkrone-aims-to-simplify-time-lapse-moves-with-the-craft-module/>

simple time lapse module for the edelkrone slider plus, easy to setup, no calculators required.. 'how long are we here' how long do you want the final video to be'.. set start and end position.. thats it.

it will also do stop motion moves so you can trigger a move over animation frame by frame.

because the motor is ultra accurate and slow it can also be used to do super slow macro friendly real time moves.

<http://cinescopophilia.com/prores-dnxhd-support-announced-for-sony-f5-f55-cameras/>

Our mission is to continue developing the most feature rich cameras on the market. In so doing we are excited to announce support for ProRes and DNxHD codecs as a future hardware upgrade option for both the F5, and F55 cameras.

We don't yet know exact flavours of the codecs and or pricing & timing of the hardware upgrade.

If anyone is still wanting to contribute to Jason Diamond in the aftermath of his house fire please send your donation via his paypal address jason@thediamondbros.com and label it as 'gift'
